

The Professional Training Program in Contemporary Dance at L'EDQ

Choosing L'École de
danse de Québec

Québec, A Place
Filled with Passion

Québec is surprising and inexhaustible. A safe and vibrant city on a human scale that relies on culture and young people to stimulate its development.

Québec, a city of art and culture.

Québec, a city of contemporary dance.

Teachers, choreographers
and guest artists from Quebec,
Canada and abroad.

A rich learning environment,
supported by a renowned and
experienced teaching staff.

Specific workouts and
technical classes tailored
to meet choreographic
requirements.

A somatic approach to
develop the expressiveness
of the body.

Fulfilling artistic projects in
Quebec, Canada and abroad.

A synergy between the
professional dance world and
L'EDQ's Professional Training
Program, where artists and
students meet, interact and
collaborate to enrich Québec's
artistic community.

Throughout the training program, students grow as artists while reaching their full physical potential. Alongside daily technical classes, they deepen their interpretive skills in repertoire and improvisation, developing thereby their artistic sensitivity needed to embody diverse choreographic languages while infusing their dance with a strong individuality.
